Echoes of Habitual Memories: Delving into the Depths.

thelifeofmine3.wordpress.com/2022/01/10/personal-habitual-memories/

January 9, 2022

Every morning, I start my day by reading the Bible📖, as it sets a positive tone for the day. When it comes to music, I prefer fast-paced songs over melodic ones, as they energize me🎶. When I read a newspaper, the first section I go to is the cinema news or stories, as I have a great interest in the film industry📰🎞.

I have a passion for singing🎤, and I used to record my songs on my laptop, keeping them private for my own enjoyment. The number three3️⃣ holds a special significance for me, and I often find myself gravitating towards things that involve three people, such as three family members or three best friends😁. “Blessing Home” holds a special place in my heart as I spent 13 years there and have created many cherished memories🥰.

I have a fondness for wearing glass bangles, and the tinkling sound they make brings me joy🤩. I particularly enjoyed watching Sivakarthikeyan’s anchoring as it was light-hearted and entertaining🥳. Hosur, my hometown, holds a special place in my heart, and I have a deep affection for it😘. If I were to have a bouquet of roses, I would love to have a yellow rose, a white rose, and a pink rose💐. Yellow 💛and pale lavender 💜are among my favorite colors, and I, like many girls, have an affinity for pink💗.

I have a special fondness for my first laptop, which was a “Zenith” model💻. It held a special place in my heart, and I cherished it. Prayer is an important part of my life, and I make sure to pray before every meal. In the rare instances when I forget, I offer my prayers while eating🍜.

Lastly, I have always admired actors Vijay and Jyothika for their talent and performances. They have left a lasting impression on me🤩.

Memories

“In the tapestry of our lives, habitual memories weave a profound tale, revealing the beauty of familiar moments that forever prevail.”
